## **DEV Systemtechnik strengthens its Systems Engineering Team David Joyce appointed as Systems Engineer based in the UK**

*DEV Systemtechnik effectively strengthens its engineering team and invests in the availability and quality of project support and the systems design phase. Based in the UK, David comes to DEV Systemtechnik from the world leading broadcast equipment manufacturer and systems provider Ericsson Television where he was employed as a Senior Design Consultant specializing in the design and integration of broadcast systems. David brings his broad knowledge and extensive experience in the design and integration of broadcast and radio communications systems to DEV Systemtechnik.*

"With their innovative technology and products as well as their reputation for outstanding customer service, DEV Systemtechnik is uniquely positioned to successfully lead the field in today's competitive marketplace", David says. He knows exactly what he is speaking about, as he gained an in-depth knowledge of the DEV product portfolio in over 7 years now – from the customer point of view. "I am very excited about this opportunity to work as a part of the DEV team to help further develop its business in the UK and worldwide."

### **About DEV Systemtechnik**

DEV-Systemtechnik GmbH & Co. KG is the first choice for the transmission and distribution of radio frequency signals as, for instance, required in head end stations. The company develops and produces leading-edge products and systems for the entire signal transmission path. The portfolio from DEV comprises fully coordinated product solutions, from antenna to receiver. All products are "Made in Germany" and meet the highest demands on system availability, reliability and controllability.
